the way it came.

henry james (1843-1916)

Read by Tony Addison

Best known under the title "The Friends Of The Friends" and chosen under that title for his classic fantasy anthology "Black Water" by Alberto Manguel as one of the best ghost stories ever written, this "ghost" story (that is, if it is "a ghost story") is a profound psychological observation of a love transcending death - also a detailed exploration of the mind of the woman who would rather have her love right here in life.

Echoing "The Turn Of The Screw" in its treatment of the supernatural as psychological, it turns the tables by making the supernatural consummately "real" - at least in the mind of one who loves. To find out how, listen on.
